

The HealthNet connect Telehealth Resource Center improves care coordination, increases access to health care and decreases costs.

HealthNet connect Telehealth uses high-definition video, broadband and cloud technologies to support long-distance clinical health care, patient and professional health-related education, public health and health administration. Our Telehealth solution is affordable, reliable and user-friendly. It also meets the growing needs of expanding access to care from specialty providers and other health care providers.

HealthNet connect offers a high quality, web-based video conferencing solution that is ideal for telemedicine from your broadband connection.

The HealthNet connect Telehealth Resource Center is part of the HealthNet connect eHealth program.
