

HealthNet connect understands how Rural Hospitals Operate

Delivering Value Added Services to Rural and Critical Access Hospitals

HealthNet connect a consortium of over 120 health care entities across four states (IA, NE, IL, WI) Sharing a common goal of instantaneous communication and exchange of medical information and technology-enabled health care.

As an eHealth Consortium, HealthNet connect aligns high speed broadband, health information technology and services to assist the participants of our Consortium in the delivery of high quality and efficient health care.
